FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

In re Amendment of )  
Section 73.202 of the )  
Commission's Rules to Assign ) RM-8286  
Channel 287A to )  
Grand Gorge, New York )

93-217

To: Chief, Mass Media Bureau

**PETITIONER'S COMMENTS UPON NOTICE OF PROPOSED RULEMAKING**

Sound of Life, Inc., the petitioner herein, by its undersigned counsel and pursuant to Section 1.401 of the Commission's Rules, respectfully submits the following comments in support of the Notice of Proposed Rulemaking ("NPRM") in the above-referenced matter that was released on July 30, 1993.

1. Sound of Life hereby restates its intention to apply for Channel 287A at Grand Gorge, New York if the channel is allotted in the manner proposed in the NPRM. If it obtains authority to construct the station, Sound of Life pledges to complete that construction promptly.

**Supplemental Comments and  
Information Regarding Community Status**

2. Sound of Life has attached to these comments the specific information requested in the NPRM at paragraph 2, namely, the addresses of the more than two dozen business and other organizations that are located in Grand Gorge. For the Commission's convenience, Sound of Life has provided a summary of these entities and the addresses provided for them in the NYNEX telephone directory. Following this abstract is a copy of the

No. of Copies rec'd 0+4  
List ABCDE

relevant white pages of the NYNEX telephone directory itself. It should be noted that NYNEX recognizes Grand Gorge's community status by devoting a separate section of its directory to Grand Gorge and identifies the community at the top of each page by name.<sup>1</sup> The business and other organizations referred to generally in Sound of Life's original petition are highlighted in these pages.

3. Sound of Life respectfully submits that the foregoing information fully addresses the "deficiency" alleged in the NPRM that each entity be identified with an address. This same information also addresses the implied request in the NPRM for proof that these business and other organizations "are intended to serve Grand Gorge, as opposed to other areas." NPRM at p. 1, ¶ 2. While the NPRM has asked Sound of Life to prove a negative, the foregoing information appears to do so quite well. If the listed entities were intended to serve other communities, they would not be located in the geographically isolated community of Grand Gorge (see, map attached to the Declaration of Bruce Winchell, attached to Petition for Rule Making). Furthermore, eight of them would not have the community name, "Grand Gorge," in their own names (including the animal hospital, fire department, pharmacy, hardware store and sewage treatment plant) if they were not intended to serve Grand Gorge. See, NYNEX white pages, Exhibit 1 at directory

---

<sup>1</sup> Persons and entities located in the smaller, nearby areas of Gilboa and Conesville are also included in the Grand Gorge listing. It should be noted that "Gilboa Road" is in Grand Gorge and the many businesses and individuals with this address are part of Grand Gorge, not Gilboa.

page 149. The directory also shows the existence and addresses of the local Methodist Church and the Pilgrim Holiness Church of Grand Gorge. The United States Postal Service has a Post Office in Grand Gorge and lists it as a "community" with an assigned zip code in the NYNEX directory. A copy of that directory page is attached and included in Exhibit 1.

4. The Commission apparently misinterpreted two material assertions made by Sound of Life in its original petition. In paragraph 2 of the NPRM, it is said that Sound of Life "submits" that the lack of a separate local government is not dispositive for allotment purposes. This phrasing implied that there was no authority for the proposition outside of Sound of Life's claim. However, this is indeed the Commission's position on this question. See, FM Channel Assignments (Semora, North Carolina), 5 FCC Rcd 934, 67 RR2d 610 (1990) at ¶ 8. In that case, the town of Semora, North Carolina was given community status despite its much smaller population (150) than Grand Gorge and its lack of any municipal services save a volunteer fire department. As the Commission noted in that case, it has found the existence of "communities" for allotment purposes where populations much smaller than Semora's 150 existed and it does not require a community to have a local government and to provide municipal services. Id. at ¶¶ 5, 8. Grand Gorge, is nearly ten times bigger than Semora and has both a fire department and a sewage treatment plant.

5. The NPRM also stated that "mere geographical location is not sufficient to establish 'community' status." NPRM, at p. 1, n.1. Sound of Life agrees with this proposition and never intended to make such a claim. Instead, it submitted a map to show the relative isolation and separateness of Grand Gorge from other municipalities. The isolated geographic location of communities like Semora and Grand Gorge is significant:

In many of the cases in which the Commission has determined that a municipality is not a community for allotment purposes, the finding was directly related to the proximity of that municipality to a larger metropolitan area. Such cases are distinguishable from instances in which, as here, a petitioner seeks to establish the community status of a more isolated municipality.

FM Channel Assignments (Semora, North Carolina), 5 FCC Rcd at 935, 67 RR 2d at 611 (¶ 5) (footnotes omitted). As stated in the Semora decision, such evidence of separate identity, along with the existence a post office, evidence of commercial activity and organizations identified with the community are certainly among the factors which, "when viewed together ... are strong evidence of the existence of a community." 5 FCC Rcd at 935, 67 RR2d at 612 (¶6).

6. Grand Gorge's community status is objectively demonstrable, unlike the places cited in the NPRM (at note 1) who were denied such status by the Commission. For example, while the places called Vimville, Mississippi and Hannibal, Ohio had either only one business (or, in the case of Hannibal, only one identified with the place by name), there are at least a dozen businesses and professionals located in Grand Gorge. The outlines of Vimville were so unclear that the petitioner could not offer a population figure for the place. There is no similar problem in the case of Grand Gorge. Finally, one of the main reasons for denying Vimville community status was its close proximity to and lack of a separate identity from the larger neighboring community of Meridian, Mississippi. Likewise, Hannibal, Ohio was deemed inseparable from neighboring Sardis and part of a larger urban area including New Martinsville and St. Clairsville, Ohio. Unlike these two communities, Grand Gorge is not an indistinguishable purlieu of a larger community. Its geographical isolation likewise helps to demonstrate that the businesses located in Grand Gorge (many of which are identified with the community by name) are indeed "intended to serve the community of Grand Gorge, as opposed to other areas." NPRM at p. 1, ¶ 2.

WHEREFORE, for the foregoing reasons, Sound of Life, Inc. requests that the Commission issue a final Report and Order amending Section 73.202 of its rules to assign FM Channel 287A to Grand Gorge, New York.

Respectfully submitted,  
SOUND OF LIFE, INC.
